Special Meeting of the Chamber of Com-METCE.

A special meeting of this body was held yesterday afternoon at one o'clock—Jonathas Sturgis, Esq., in the chair—to hear the report from the special committee of thirteen, called the Committee on National Affairs, appointed at the last regular monthly meeting to confer with other committees of a similar character—namely, the Mayor Collections of the Fifth Avenue Botel the Mayor's Office Committee , the Fifth Avenue Hotel Committee, the Chamber of Commerce Committee and

committees was to recommend, first, the holding a Union meeting; second, to draft a series of resolutions, and third, to prepare an address to the people of the United States. Mr. Stevans' report and resolutions to sustain the action recommended was adopted. General Wirmsons addressed a few words to those present, urging all to continued and incessant action for their country; and then, in pursannee of a motion, the meeting adjourned to two o'clock P. M. to hear the resolutions and address recommended by the committee. This being an adjourned meeting meeting to hear the report of a committee, the attendance was exceedingly siim, not more than ten or a dozen members being present.

sim, not more than ten or a dezen members being present.

At two o'clock the Chamber again met, and, on motion, D. D. Field, Esq., read the resolutions and address which had been prepared in accordance with the resolutions of the committee of thirteen. The resolutions and address, the tone of which was strongly in suppert of the government, the vigorous prosecution of the war, and denunciatory of the threatened European intervention, were adopted by the meeting as being admirably adapted to the present condition of affairs.

A committee of elseen, to attend to the details of the intended public meeting, was, on motion, appointed, and Tuesday next fixed on as the time for helding it, the selection of the place of meeting being left to the discretion of the Committee of Arrangements.

The thanks of the meeting were given to the sub-committee that prepared the resolutions and address, which we hope to have an opportunity of laying before the public prior to the meeting was drawn up, to which the suppose of a present of

The Board of Aldermen held a regular weekly meeting at one o'clock yesterday, Alderman Henry in the chair.

Alderman Dayron offered a preamble and resolution, to pledge of the corporate charter and people of the city of New York to pay every soldier who has enlisted or shall enlist in the national army to make up the complement of the call issued me hundred dollars if the soldier be a married man, and the sum of fifty dollars if he be a single man, or have no family depending on him; and that the Committee on

Alderman Parlier moved to lay the matter on the table.

Alderman Dayrow trusted that the resolution would pass. He understood the gentleman from the First (Alderman Smith) to say that the Boards had already a resolution before them which he thought would meet the matter in question. He was not aware of any such resolution, and he desired that the document he had offered should be a distinct and emphatic expression of the Common Gouncil, which should encourage enlistment of men to put down the present revolt. He believed the city of New York might better spend its hundreds of millions it they pleased, and bring this contest to an early conclusion, than to let the war be protracted as it has been. It was a matter of fact that at the present time agricultural and mechanical laborers were able to obtain abundant employment, and they could not bring a man from his workshop or from his field without an equivalent. Let them but tender to men an equivalent and they would flock to the standard of their country, and before the year would expire the infamous attempt that was being made to destroy the constitution of our country and the liberties of our people would be frustrated.

Alderman Waiss advocated the laying of the preamble and resolution on the table, on the ground that it was in the hands of a committee already.

elly, in order to avoid imposition in dispensing relief, which-passed.

Alderman MITCHELL, Chairman of the Committee on Repairing and Decorating the Chamber of the Board, presented a report in lavor of paying the party whe had done the work his bill of \$2,000.

Alderman DATTON opposed the payment of the bill, on the ground that the work was not legally done, inasmuch as it had only passed the Board of Ardermen and had not been brought before the Board of Councilmen.

After a short discussion the report was laid over.

A resolution was adopted, to the effect that the Board recommend to the Commissioners of the Central Park to place the hospital of Mount St. Vincent in charge of the State authorities, and hospital to be under the management of the States of Charity.

After the transaction of some routine business the Board adjourned.

Recruiting for the Army. TO THE EDITOR OF THE HERALD

NEW YORK, July 10, 1862. There are many persons in this city who are competent to hold positions as officers, and could raise com-panies with but little trouble, but for one thing. They have families to support, and, not receiving any money until they have their complement of men recruited, it would leave them in a very destitute condition. Could there not be a fund got up allowing each person who has the proper authority to raise companies a fair al-lowance weekly for his supporty I am satisfied that it would be the means of heiping recruiting to a great extent. Hoping that you will bring this before the pub-lic, I remain,

FINANCIAL AND COMMERCIAL.

THUASDAY, July 10-6 P. M. The excitement in the gold and exchange

markets continues unabated. Gold opened this morning at 117%, fell to 116, 115%, 115, and then began to rally. Between the boards it rose to 115%; at the second board it sold at 116, and closed that bid. Bills on London opened at 129%. were then sold at 129, 128%. 128, and in the afternoon at 128%. The advance in gold and bills has led to remarkable activity in merchandise. People are shipping to Europe everything whice can be bought. Articles which have been stagnaut for months such as copper and other articles which are seldom ex. ported are being shipped in large quantities. Every one who owes anything to Surope is sending produce to pay the debt; others are shipping on speculation, relying on the premium on their exchange for their profit. Though we are receiving no cotton from the South, our export movement will probably be unprecedented in magnitude

figure. On the other hand, the advance in bills will nearly annihilate our import trade. Goods ordered sixty days ago, and not paid for at the time, must sell for 17 per cent more than they were worth when they were ordered in order to reim-burse the importer. Goods sent here on commis-sion by European manufacturers will net a very heavy loss. The premium on gold is, in fact, just so much additional customs duty levied on foreign goods; and, as the duties were nearly prohibitory before, this will render them absolutely so. Fortunately, with the exception of tea, coffee, hides, drugs and one or two other articles, everything try; and, on the other hand, the supply of food and other produce which can be sent abroad in case of necessity, and sold on American account, is almost unlimited. Breadstuffs, though they have advanced considerably within a few days, are still 10 to 20 per cent lower than they were a year ago. People who are afraid of the depreciation of the currency cannot do better than send grain or flour to England, returns to be made in

Money continues fairly active at 5 a 6 per cent. Many espitalists are distrustful of the future, and decline to part with their funds. Certificates of indebtedness are worth 991/4 a 1/4; green backs, 7% . 8.

The stock market was active to-day; but prices as a general rule were rather lower. Pacific Mail, which advanced 31/2 per cent, was an exception to the rule, and so was Cleveland and Pittsburg, which rose one per cent. Central opened at 931/4, fell off to 92, then rallied to 92%, and finally closed at about 92½. Erie fluctuated between 35½ and 36½. At the first board Erie preferred declined ½, Hudson River ½, Harlem 1, Michigan Central 1, guaranteed 1, Illinois Central 1, Galena ¾, Toledo %, Rock Island %. State stocks were generally steady, with the exception of Missouris, which declined 1/2 per cent. Bonds continue in active demand; the issues of the Northwestern. which are the lowest of the safe bonds on the list, appear to be again rising in favor. Between the boards the market was not active, but better prices were offered for stocks. At the second board there was no material change. The market closed steady, the following being the last quotations:—United States 6's, registered, 1881, 102 a 1021/2; United States 6's, coupon, 1881, 102 a 1021/2; United States 5's, 1874, 90 a 91; | 102 a 102½; United States 6's, coupon, 1881, 102 a 102½; United States 6's, 6374, 90 a 91; Treasury notes, 7 3-10 per cent, 104½ a 104½; 104½; 106 merican gold, 115½ a 116; Pacific Mail, 109½ a 109½; New York Central, 92½ a 92½; Erie, 35½ a 36; do. preferred, 63½ a 16; Pacific Mail, 109½ a 109½; New York Central, 92½ a 92½; Erie, 35½ a 36; do. preferred, 63½ a 16; 63½; Hudson River, 45 a 47; Harlem, 16½ a 16½; 160 do. 110 do. 115½ do. preferred, 38½ a 38½; Reading, 57 a 58; Michigan Central, 61½ a 61½; Michigan Southern and Northern Indiana, 25½ a 25½; do. guaranteed, 57½ a 57½; Panama, 130½ a 131; Illinois Central, 69 do. 100 d 64% a 66; Chicago, Burlington and Quincy, 771/4 a 781/4; Milwaukee and Prairie du Chien, 34 a 35; New York Central 7's of 1876, 107 a -; Erie third mortgage bonds, 981/4 a 99; Illinois Central 7's,

and will be in working order by the fall. Mr. Ogden has just completed the arrangement with the managers of the New York Central for the propeller line which is to carry grain from Green Bay. This will undoubtedly be one of the most important shipping ports on the lake.

The Sub-Treasury in this city received to-day a special deposit of \$238,000 which is not likely to be claimed in a hurry. It seems that when New eans fell it was discovered that the rebel government had a sum of nearly a quarter of a million to its credit in the banks of that city. This sum General Butler claimed on behalf of the United States, and by a little gentle pressure succeeded in persuading the banks to draw for it on their correspondent banks in this city. The drafts were paid this morning. The deposit was made, we believe, in the name of the "so-called Confederate government."

The directors of the Continental Insurance Company have declared a dividend of forty per cent upon the earned premiums of the past year to nolders of policies, and a semi-annual dividend of six-per cent to stockholders—the former to be issued September 10, and the latter payable on the 14th inst.; the Niagara Fire Insurance Company, a semi-annual dividend of five per cent, payable on the 15th inst.; the Equitable Life Assurance Society, a semi-annual dividend of three and a half per cent on the capital stock, payable on the 15th inst.; the Brevoort Fire Insurance Company, a dividend of five per cent, payable on demand; the Relief Fire Insurance Company, a semi-annual dividend of five per cent, payable on demand; the trustees of the Seamen's Bank for Savings, a dividend of five per cent on sums of five hundred dollars and under, and four per cent on all larger sums; the Bowery Savings Bank, its usual interest dividend at the rate of five per cent on sums of five hundred dollars and under, and at the rate of four per cent on larger sums; the Bank of the State of Missouri, a dividend of three per cent, payable on the 21st inst .; the Merchants' Bank of St. Louis, three per cent, payable on the 15th; the Mechanics', three and a half, payable on demand; the Southern, two and a half, payable on demand; the Exchange, of five, payable on demand-all of the same city; the New Haven City Fire Insurance Company, a semiannual dividend of four per cent, payable on the

As there seems to be a disposition just at present, on the part of individuals, to provide against the scarcity of small change by the issue of small circulating notes, it may be well to quote from the laws of this State, making such an act an offence, and inflicting a penalty therefor. On page 118. Revised Statutes, fourth edition, volume 2, will be found the following sections:-

Sec. 6. No person, association of persons, or body corporate, except such bodies corporate as are expressly authorized by law, shall keep any office for the purpose of issuing any evidences of debt to be loaned or put in circulation as money; nor shall they issue any bills or promissory notes, or other evidences of debt as private bankers, for the purpose of loaning them or putting them is circulation as mency, unless thereto specially authorized by law.

rized by law.

Sec. 7. Every person, and every corporation, and every member of a corporation, who shall contravens either of the provisions in the lass section, or directly or indirectly assent to such violation, shall ferreit \$1,000.

Section 11, on page 119 of the same volume, forbids any person to pay, give or receive in payment any bank notes issued by any banking company in this State of a less denomination than one dollar; and section 12 provides that the penalty for the violation of this provision shall be the forfeiture of the nominal amount of the note so received or paid.
